DATA SHEET

IONAC GFI 710 DLC®-A

Ionac GFI 710 DLC-A is a pure grade of diphenyl propylene diamine, silicon-dioxide blend, which prevents dye degradation in fabrics from nitrous oxide in the air, also known as a gas fading inhibitor. Ionac GFI 710 DLC-A can be emulsified in a hydrocarbon base (i.e. xylene) with a typical surfactant (i.e. Tergitol NPX) for ease of application. Ionac GFI 710 DLC-A imparts excellent anti-fade properties to dyed acetate fabrics.

TEST	TEST METHOD	SPECIFICATION
Actives Content, %	QCL-8.2.4-2-1	70 - 74
Carrier Content, %	QCL-8.2.4-2-1	26 - 30

TYPICAL PROPERTIES

Actives Content, %		72
Carrier Content, %		28
Specific Gravity (Apparent)		1.248
Packaging	40# Net, Multi-wall Bags	
Color		Tan

Date of Revision: 11/20/03
