DATA SHEET

Natro-Cel 7092-A

Natro-Cel 7092-A is an intermediate-molecular-weight plasticizer dispersed on silica. The organic component is polyester glutarate, which provides the permanence of high molecular weight plasticizer with ease of processing. Natro-Cel 7092-A provides excellent extraction-resistance to polar fluids and humid environments and is therefore well suited for outdoor applications. It improves extrusion properties, incorporation and handling in such applications as belts, flooring, and fuel hose.
